ANDRES F GARCIA

ANDRES F GARCIA

FRONT-END WEB DEVELOPER

My name is Andres Garcia, also known as the CSS ninja. I am a designer turned developer with ten years of experience in digital media. I work particularly well with both designers and developers, bridging the gap between very different disciplines. I am a WordPress Guru, and I love Bootstrap!

WORK HISTORY

2013-Present

SnipSnap
Front-End Web Developer

After working with SnipSnap for a year as a consultant under AndresTheGiant, they asked me to join the team full time. I was excited about the opportunity to work with an innovative start up and contribute firsthand to its quick and impressive growth. Along with working on the front-end web development of SnipSnap's Coupon Author program, I also build SnipSnap's websites (see www.snipsnap.it to see the "new" site) and am responsible for developing all the company's marketing emails. Since joining the team, the Coupon Author platform has grown from a whiteboard idea to a fully-launched product with active clients including

2012-Present

AndresTheGiant
CEO

In 2011, while working at Yunno I branched out and began freelancing projects. As the freelance projects grew, I decided to start my own business and launched AndresTheGiant LLC in 2012. Since launching I have worked with several companies, providing them with a variety of services including Graphic Design, Web Design, App Design and Web Development.

2010-2012

Yunno
Web Designer / Front-End Web Developer

Yunno was a social media platform selected to be a part of Dreamit Ventures' start up accelerator program. During my time there, I became increasingly interested in and skilled at front-end web development. I was in charge of all the design needs at the company, including themeing the platform's portals to match the look and feel of several different brands.

2007-2010

EPS Platinum
Jewelry Designer

I was responsible for handling all tasks related to design. Most notably, I created the 3D models for all the jewelry design concepts. I worked with rapid prototype manu-facturers to create the designs from which molds were made and final pieces created. I was also tasked with handling all the company's graphic and marketing needs, including their website, catalogs and brochures.
